

6. Blocks

6.3. General

6.3.3. Navigation

Add a navigation block to display links to pages in a collection.

Configure the *Navigation* block

1. **Block title:** The title of the collection is chosen automatically unless you provide a different one.
2. **Collection:** Choose the collection from the drop-down menu for which you wish to display links in the block.
3. **Retractable:** Tick this checkbox if you want to allow users to reduce the block to its heading on a page. The user can click the *Retractable* icon  to just show the heading.
4. **Automatically retract:** Tick this checkbox if you want to show only the block's heading when a user views the page. The user can click the *Retracted* icon  to view the entire block.
5. Click the *Save* button to accept your changes, or click the *Cancel* button to leave the block's content as it is. The *Remove* button is shown only when you place the block into the page for the first time.
6. You can also click the *Close* button  in the top right-hand corner to either remove a newly created block before it is being saved or to cancel any changes and leave the block's content as it is.
